

WATER DISTRICT #125

IN THE FLOW

Your Commissioners:

Jerry Thornton, Sr.
John Thompson
Renea Blanchette

July
2020

General Manager:

Shane Young

Superintendent:

Dylan Bailey

COVID-19 Update

These are unprecedented times. COVID-19 has impacted all of our lives and we appreciate your efforts to help us combat this pandemic. At Water District 125, we understand that important role we play in your ability to stay safe and sanitize properly. The Board of Commissioners have approved a motion to suspend all past due charges and water shut offs for delinquent service through August 2020. Given that this is an ever changing situation, those allowances may be extended out further into the future.

In accordance with Governor Jay Inslee phased re-opening plan. Government buildings are required to stay closed from face to face transactions until Phase 3 has been approved for King County. The District continues to otherwise operate as normal during this time including 24 hour emergency phone support. Payment can be made at the District website, by phone or dropped off in our secure lockbox located in front of the administration building. No fees are charged for electronic payment processing either over the phone or on-line.

The Board of Commissioners have also approved extensions to payment arrangement plans. If you have been adversely affected by COVID-19 and need help with payment arrangements, please contact the District office at (206) 242-9547.

We appreciate your patience during these uncertain times. Staff will continue to work to maintain the District's infrastructure to ensure you continue to receive clean, potable drinking water. Please contact us if you have any questions or concerns.

Gardening in the Pacific Northwest

Summer is upon us and Fall is right around the corner. With more people staying at home during this time we hope you are enjoying the beauty that may be in your very own back yard.

Savvy gardening classes are available on-line through Saving Water Partnership. For expert advise including choosing the right plants, smart watering and transitioning your garden into the Fall. Please contact the Garden Hotline at (206) 633-0224 or visit savingwater.org/lawn-garden/

Visit Savingwater.org for more helpful tips, tools and resources for conserving water and lowering your water bill. Together, we can all make a difference!

THE FACTS ON LEAKS

10 percent of homes have leaks that waste 90 gallons or more per day

A leaky faucet dripping at the rate of one drip per second can waste more than

3,000 gallons
per year
